Microsoft Outlook

USER GUIDE

how to configure your emails

IN MICROSOFT OUTLOOK 2010

Locate Microsoft Outlook 2010 on your computer and open it.

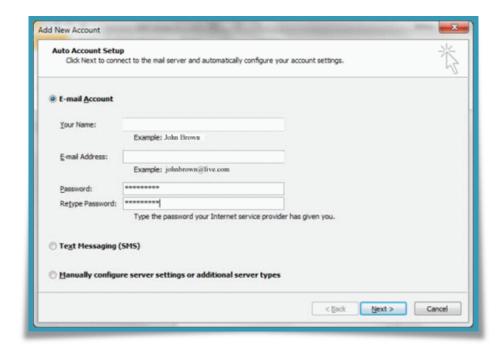

- 1. If the Microsoft Outlook 2010 Startup wizard displays automatically:
- 2. On the first page of the wizard
- 3. Click Next
- 4. Then, on the Email Accounts page of the wizard
- 5. Click Next again to set up an email account
- 6. Click Manually configure server settings or additional server types, and then click Next

how to configure your emails

IN MICROSOFT OUTLOOK 2010

If the Microsoft Outlook 2010 Startup wizard doesn't appear, on the Microsoft Outlook 2010 toolbar,

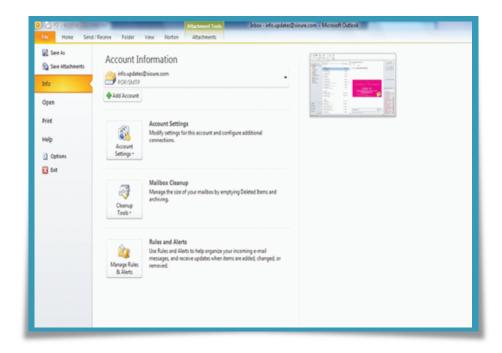

- 7. Click the File tab
- Then, just above the Account Settings button
- 9. Click the Add Account button
- 10. Click Manually configure server settings or additional server types
- 11. Then click Next

how to configure your emails

IN MICROSOFT OUTLOOK 2010

In the Choose Service page of the wizard, select Internet Email, and then click Next. Provide the following information on the Internet Email Settings page:

Under User Information section:

- Within the Your Name box, enter the name you want users to see when you send email from this account.
- Within the Email Address box, enter your email address.

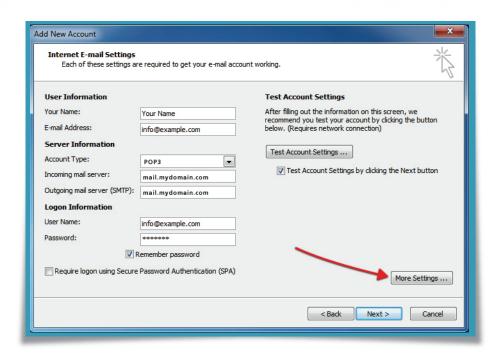

Under Server Information section:

- Under Account Type, select POP3 [Post Office Protocol version 3]. POP3 allows the user to log into one machine/computer.
- In the Incoming mail server box, enter the POP server name.
- In the Outgoing mail server (SMTP) box, enter the SMTP server name.

how to configure your emails

IN MICROSOFT OUTLOOK 2010

Under Logon Information:

- •In the User Name box, enter your email address.
- •In the Password box, enter your password. If you want Outlook to remember your password, make sure the tick box next to Remember password is selected.

At the lower-right side of the page, click More Settings...

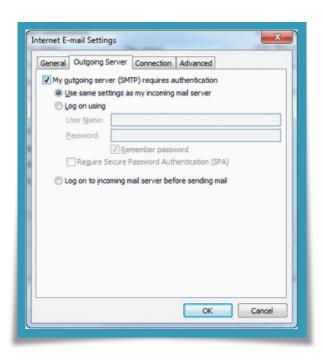

Then fill in the Internet Email Settings dialogue box as follows:

On the Outgoing Server tab, select My Outgoing Server (SMTP) requires authentication.

how to configure your emails

IN MICROSOFT OUTLOOK 2010

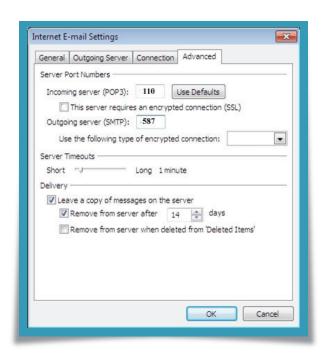

On the Advanced tab:

• Under Outgoing server (SMTP), next to Use the following type of encrypted connection, select "NONE", and then click OK. If you want to keep a copy of your messages on the server, under Delivery, check the box next to Leave a copy of messages on the server. If you don't select this option, all messages will be removed from the server and stored locally on your computer.
